

# rotondo - a circle for emotion

The full moon and the sun, a ring or a wheel...  
in all its forms, the circle symbolizes magic of  
a very special kind which continues to work its  
spell.

**rotondo** makes it possible for you to bring this  
most perfect of all forms into your living space.  
Sensuous, enthralling and above all aesthetic,  
this circular cabinet will awaken all sorts of emo-  
tions... Only you can decide what these will be.  
Thanks to the modular construction method we  
can configure **rotondo** in total compliance to your  
own specification. The choice is yours.

emotion  
comes  
full circle

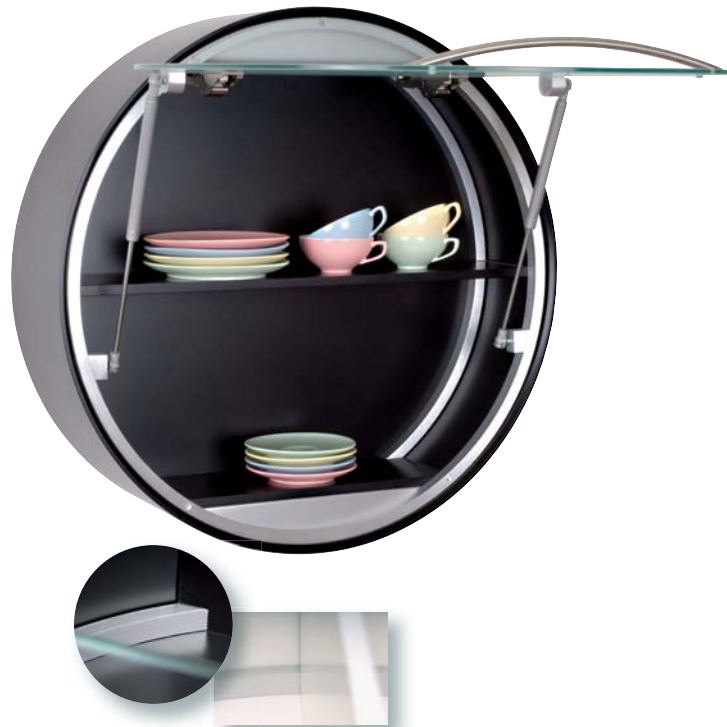

## Light and Colour

**rotondo** gives you the opportunity to create emotions with light and colour according to your very own wishes. An LED light-band surrounds the corpus with a fascinating aureole of light – either as an interplay of several changing colours or in one individually defined colour. For additional lighting effects we can also furnish the display cabinet with inside dimmer lights or spotlights. So you can have your **rotondo** exactly the way you want it.

## Construction and Technology

**rotondo's** glass door has an elegant top opening. An exciting high grade appearance has been achieved by reduction of the visible metal framework to a minimalist form and the harmonious combination of materials.

## Materials and Surfaces

The seamless wooden corpus measures 70 cm in diameter and is available in several veneers as well as in two choices of depth. The wall cabinet is completed by a frame construction of high quality aluminium. **rotondo** can be supplied with or without a glass door. A wide variety of glass doors are available to choose from.
